Company Overview

Jackpot Digital is the leading developer and supplier of dealerless electronic multiplayer poker tables for both land-based casinos and cruise ships. The Company's flagship product, Jackpot Blitz®, is a state-of-the-art 75-inch, 4K touchscreen platform that delivers a highly immersive and interactive poker experience while reducing operational costs for casinos. As the leading manufacturer of dealerless electronic multiplayer poker tables, Jackpot Digital is uniquely positioned to capitalize on the rapidly expanding electronic table games (ETG) market, which is projected to reach \$3.4 billion by 2030 (SOURCE: Verified Market Research). With relationships across a broad and growing client base—including Carnival, PENN Entertainment, Royal Caribbean, and multiple tribal and regional casinos—Jackpot Digital is redefining casino poker economics by combining player engagement with operator efficiency.

Investment Highlights

Global leader in dealerless poker tables

- Leading manufacturer of electronic multiplayer poker tables with no live dealer requirement
- Flagship product, Jackpot Blitz®, combines cutting-edge 75" 4K touchscreen technology with interactive gameplay

Compelling economics for casino operators

- Drives poker room revenues while significantly lowering operating costs
- Eliminates dealer staffing challenges, training, and related HR expenses
- Enables casinos to run 24/7 poker and tournament play profitably

Expanding market opportunity

- Electronic Table Games (ETG) market projected to exceed \$3.4 billion by 2030 (SOURCE: Verified Market Research)
- ETGs appeal to younger, tech-savvy demographics and online players migrating into land-based casinos
- Jackpot Blitz® bridges the gap between traditional poker and new, underserved player segment

Proven and growing customer base

- Trusted by leading operators including Carnival Cruise Lines, PENN Entertainment, Royal Caribbean, Loto-Québec, and numerous tribal/regional casinos
- Jackpot Blitz® delivers attractive economics, driving rapid customer adoption
- Long-term recurring revenue model via monthly revenue sharing with casinos

Strong growth catalysts

- Expansion into regulated land-based casinos following successful cruise ship deployment
- Rapid acceleration in new table installations across North America, Asia, and Europe
- Licensing and certification pipeline unlocking significant addressable market

Recurring revenue model

- Monthly revenue share agreements create a predictable and scalable business model
- Multiple revenue streams including side bets, mini-games, and 24/7 automated tournaments

Reputable and Growing Client List

Value Proposition

Jackpot Digital offers investors a compelling entry point into one of the fastest-growing segments of global gaming: electronic table games (ETGs), projected to reach \$3.4 billion by 2030 (SOURCE: Verified Market Research). With its proprietary Jackpot Blitz® platform, Jackpot is the leading provider of fully dealerless, multiplayer poker tables, solving critical pain points for casino operators by reducing labor costs, eliminating staffing shortages, and driving improved operational efficiencies.

The Company's technology is already trusted by some of the most recognized names in gaming, including Carnival Cruise Line, Royal Caribbean, PENN Entertainment, Princess Cruises, and Loto-Québec. These long-term partnerships validate not only the demand for Jackpot's dealerless platform but also the compelling economics it delivers to casino operators. By eliminating dealer labor costs and enabling continuous, profitable operation, Jackpot Blitz® allows casinos to generate higher-margin poker revenues with fewer overhead expenses. This combination of operational efficiency and enhanced player engagement underpins the strength of Jackpot's recurring revenue model through revenue-share agreements, which scales with each new installation.

Looking forward, Jackpot is at an inflection point for accelerated growth. With new regulatory approvals in hand and licensing underway in multiple jurisdictions, the Company is expanding beyond its cruise ship stronghold into land-based casinos across North America, Asia, and Europe.

As the category leader in dealerless electronic poker, Jackpot is uniquely positioned to capture market share in a global gaming environment that is increasingly embracing automation and technology. For investors, this represents an opportunity to participate in a microcap company with established blue-chip customers, a scalable recurring revenue model, and the potential for significant multi-year growth and shareholder value creation.
